What is Pocket Closet

Pocket Closet is an online mobile application where users can get access to common fashion trends and create outfits by matching different articles of clothing along will also being able to see different pieces of clothing that they might like to purchase.

How does it work.

With Pocket Closet, you take the articles of clothing, lay it down flat and put it up against a solid color. You can then take a picture of that piece of clothing and add it to your virtual closet to then be able to mix and match your different pieces of clothes

WORKING THE APP

Home Page

After logging into the app, you are first brought to the home page where u are able to view posts from different people and stores that you personally follow.

Search Page

In order to follow people, you will need to find their account first. You can do this by going to the search page where you can search for clothing franchises or people you would like to follow.

Create Outfit Page

The Create Outfit page is where all the magic happens. On this page you will be able to scan in your different pieces of clothing and add them to your virtual closet.

After that you can customize different outfits and save them to your account where you can go back and view them later.

Once saving an outfit, that configuration of clothes will be posted to your account for all your followers to see your masterpiece.

Account Page

The Account page is where you can access all the information about your own account

You can see how many posts, followers and followings you have along with your username and your profile picture.

You also have the ability to view your posts and if you need to, edit your profile if you need to change or update any of the information.
